Executive Profile

Florida Attorney with 30 years' experience. Areas of expertise include real property, probate, estate planning, corporate and banking representation and commercial transactions. Served six years as Vice Mayor/Councilman for the City of Homestead, Florida.

Skill Highlights

- Superior verbal and written communications skills to effectively and fully explain, negotiate and defend positions and proposals. Adept at creative problem solving/compromise for the purpose of attaining goals and objectives on behalf of clients and the public good.
- Strong belief in the obligation of the public service without regard to private gain; that contributing and taking part in the ever evolving process of shaping and improving a community is required of those who are in public service.

Core Accomplishments

Proactive leadership in public office and in private practice. Belief that unselfish service to a community irrespective of personal interest is the greatest measure of ones commitment to a public task. The efforts to overhaul the Charter of the City of Homestead to provide for equal electoral representation and ensure that all votes count equally was my greatest accomplishment in public office. As an attorney, I have worked with clients to achieve their goals and at the same time bring positive results to the community at large. For example, my participation as an attorney in a real estate transaction was key to retaining Baptist Hospital in Homestead such that the first new hospital built in Florida in nearly thirty years was located in Homestead.
